Portfolio: <https://bryanalexfreire.github.io/>

Software Quality Engineer with 4+ years designing end-to-end testing strategies: from manual exploration to CI/CD-integrated automation suites. Specialist in BDD, automation frameworks (Selenium, SerenityBDD, Karate), and performance testing. Focus on quality through exploration, living documentation, and defect prevention.

PROFESSIONAL EXPERIENCE

QA Engineer | Banco Pichincha S.A.

Quito, Ecuador | January 2026 - Present

- QA leadership for banking products (Accounts, Investments, Core Migrations): E2E/APIs/Mobile implementation reducing regression cycles 75%
- Cross-functional team management (~5 QAs). Normalization of 30 retention cases → 13 certified (100% coverage)
- BDD automation with Cucumber/Selenium. Contract testing integrated in CI/CD. Living documentation for critical flows

QA Specialist | Halliburton (Contractor)

Quito, Ecuador | September 2023 - January 2026

- Cloud project automation and functional testing. E2E test suite design with Selenium/Cucumber. 40% reduction in testing cycles
- CI/CD integration with Jenkins. SonarQube coverage analysis. Automated reporting. Performance testing with k6

QA Analyst | NTT Data Europe & Latam

Quito, Ecuador | March 2023 - June 2023

- Testing fundamentals: manual test cases, browser execution, defect reporting. ISTQB methodology learning
- Functional regression for web applications. Stack: Jira, Postman, modern browsers

QA Analyst | Bayteq

Quito, Ecuador | November 2021 - February 2022

- Functional and regression testing for e-commerce platforms. Test case and defect documentation with clear reproduction steps
- Critical flow validation. Severity levels and requirements traceability

QA Tester | Zurich Insurance

Quito, Ecuador | June 2021 - October 2021

- Insurance claim processing workflows and policy management system validation. Compliance with financial regulatory requirements
- Legacy system testing. Regulatory compatibility assurance

TECHNICAL SKILLS

Test Automation: Selenium WebDriver, SerenityBDD, Cucumber, Karate, Appium

API Testing: Postman, REST, GraphQL, Contract Testing, WireMock

Performance & Load: k6, Grafana, LoadRunner, Apache JMeter, Performance Baselines

CI/CD & DevOps: Jenkins, Azure DevOps, Git, GitLab CI, Docker basics

Programming: Java, JavaScript/Node.js, SQL, Gherkin/BDD

Databases: PostgreSQL, Oracle, MySQL, SQL Server

Test Management: TestRail, Azure Test Plans, Jira, Confluence

Methodologies: Agile/Scrum, Risk-Based Testing, BDD, Test Automation Strategy

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- ISTQB Certified Tester Foundation Level 4.0 (Advanced Testing)
- ISTQB Certified Tester, Foundation Level - Agile Tester (Agile-focused QA)
- K6 Certified: Performance Testing & Load Testing
- Certified Scrum Master (CSM) - Agile Team Practices
- DevOps Foundations: CI/CD - Infrastructure & Automation
- Specialized Training: Docker Fundamentals, Azure Cloud Services, Design Thinking, Leadership in Technology
- 22+ Professional Development Courses: Selenium Advanced, Karate API Testing, k6 Performance Engineering, Database Testing, Test Strategy & Planning

EDUCATION

Bachelor's Degree in Information Systems Engineering

Focus Areas: Software Quality Assurance, Test Automation, DevOps & Cloud Infrastructure
Graduation: 2024
